PROFILE

Bachelor of Engineering from University of Brawijaya in 2021. Currently active as a job seeker and taking online data science courses. During college, I mastered engineering sciences such as Engineering Mathematics, Statistics and Probability and Energy. I also had organization experience which allowed me to having growth mindset and develop skills that required by working in a team or independently. I have an interest in career in data field.

SKILL

- Microsoft Office
- Python
- C++
- SQL
- HTML
- CSS
- OOP
- Tableau
- BigQuery
- Data Wrangling
- Data Cleansing
- Data Visualization
- Feature Engineering
- Machine Learning
- Statistical Analysis
- Power BI
- Google Data Studio

CERTIFICATION

- Fresh Graduate Academy Data Science
- Data Scientist Associate
- SQL Advanced

LANGUAGE

- Indonesian
- English

COURSES

Digital Talent Scholarship

- Fresh Graduate Academy, Data Science
  September 2022 – October 2022

DataCamp

- Data Science
  January 2022 – August 2022

EDUCATION

University of Brawijaya

- Bachelor of Engineering, Mechanical Engineering
  2017 – 2021
  GPA : 3.61

ORGANIZATION EXPERIENCE

Aerokreasi Mesin Universitas Brawijaya

Staff of Managerial Division | Mar 2019 – Dec 2020

- Managed the designs of team's Name Card, posters and proposals
- Documented Aerokreasi Activities
- Managed Aerokreasi Finance

ACHIEVEMENT

BRI Data Hackathon 2021

- Built a supervised machine learning model for time series to forecast office cash and e-channel cash with python for the next 31 days.
- Built a supervised machine learning model with python to classify which employees will be the best performance.
